Problem to be solved

Protect countries from rise of Soviet Communism.

Protects students from making fun of others.

Why is this a problem?

The United States and its allies tried to prevent the spread of communism.

Causes lower self esteem, resentment towards others, & dislike for peers

Things tried in the past

Treaty of Versailles

Punishing people who make fun of others by writing sentences.

What treaty agrees to do?

Safeguard freedom & security of NATO countries by political & military means.

Encourage others with uplifting words, instead of putting each other down.

Who is involved in the Treaty?

The United States, Canada, and 19 other European Countries.

Students and teacher.

How well does the Treaty work?

Worked very well. NATO is still in effect today.

Will be decided after one month trial run.

So what? What is important to understand about this?

The North Atlantic Treaty Organization aided in the protection of the United States and its ally countries to prevent the spread of communism. The Class Treaty will prevent students from making fun of others.

**Main ideas**

Personal Income Tax	Corporate Income Tax	Social Ins. & Retirement Receipts	Excise Tax Other
---------------------	----------------------	-----------------------------------	---------------------

**Conclusions**

Definition	Progressive Tax Based on taxable income: \$ from jobs/investments	Based on taxable income: money earned each year	Federal & State income taxes SS tax/FICA	Excise: certain goods/often luxuries, made in United States	We must have taxes to operate our country & pay for protection
Percentage Paid to U.S. Government	49 %	10 %	34 %	Excise 3 % Other 4 %	According to these % corporations are not paying enough
Tax Impact	Area of biggest contribution, Large income= More \$ to gov.	Successful Corp.= Higher individual income & higher tax contribution	Individual income usually low at this level= less money to contribute	Some goods are not luxury, excise tax on gas helps pay for roads	If all Amer. were wealthy & made a lot of \$ the U.S. would be richer
Terms	Taxable Income: after deductions, adjustments, & exemptions	Deductions: medical expenses or interest on loans	Adjustments: Parts of income not taxed: Social Security benefits	Exemptions: Children, depending on parents	Social Security: \$ gov. pays retired & disabled, 50 million Amer.
<b>Conclusions</b>	It takes a lot of income to have some left after taxes are paid	If I owned a business I would like 10 % figure	It seems unfair to tax old people, the disabled, and the unemployed	When the gas excise tax is used to improve roads we all profit	

Main ideas	Elastic Demand Price increase causes a large change in demand	Inelastic Demand Price increase has little effect on demand	
Candy Bar Verses Gallon of Milk	If the price of a candy bar goes from 75 to 90 cents you have Elastic Demand	The price of a Gallon of milk goes from \$3.00 to \$3.60, does not affect demand	<b>Conclusion about this main idea</b> Milk is viewed as a necessity consumers will buy at just about any cost
Fresh Strawberries Verses Potatoes	Berries sell for \$2.00 dollars a quart; price increases to \$3.50 a quart	Potatoes increase by 30% per pound, consumers will still buy	<b>Conclusion about this main idea</b> Spuds are more costly, but we still eat them with grilled steak
Lobster Verses Ground Beef	Cost of lobster 3 X higher than beef, few people buy lobster regardless of cost	Ground beef increase is still cheaper than most meats, fish, or chicken	<b>Conclusion about this main idea</b> I was 10 when sampled a bite of lobster, we eat ground beef all the time
Ford Explorer SUV Verses Mercedes SUV	Mercedes SUV has a 35% increase on new models, certain consumers will buy	Family of 5 needs roomy automobile, will purchase an affordable Ford	<b>Conclusion about this main idea</b> My parent's first car was a Ford; they do not talk about buying a Mercedes
Housing	Home with 5,000 sq ft of living space on a lake comes on the market for 2 million	Modest Ranch style home with 50 ft. lot sales for 10 thousand above appraisal	<b>Conclusion about this main idea</b> People who have a lot of money can afford huge houses on lakes
Home Decorating	Original paintings and fine furnishings increase by 80%, appeals to few	Market price increases for reproductions, consignment furniture, & antiques	<b>Conclusion about this main idea</b> When we remodeled our kitchen, my mom shopped around for the best prices
	<b>Conclusion about these features</b> Elastic Demand items are often a luxury that few will or can afford to buy	<b>Conclusion about these features</b> Inelastic Demand items are usually a necessity or substitution

**Seems like  
real-life, but ...**

**Story**

Jack and the Beanstalk

**Author**

unknown (folk tale)

However, they are actually quite **DIFFERENT**  
and shouldn't be confused because:

**This part of the story ...**

Jack steals the Goose that lays golden eggs, climbs down the beanstalk, and cuts it down, killing the giant

Involve greedy people willing to kill others in order to get treasure they want. Having no respect for others' life or property.

**This event involves ...**

One-on-one conflict. One person wins, the other loses, and nobody else is really affected (except maybe Jack's mom).

**Might *SEEM LIKE* this real-life event ...**

Saddam sending Iranian troops to invade Kuwait to steal their treasure & oil wells

Conflict affected tens-of-thousands of people. Many in Kuwait lost their homes and fortunes, thousands of Iranian soldiers killed by US, and world peace was threatened

**While event involves ...**

**So what? What is important to understand about this?**

Jack and Saddam displayed the same unethical behavior. Although Saddam's adventure affected thousands of people, the Giant was probably no less concerned or less hurt as any individual from Kuwait!
